Plan W4678PR: Tudor-Style Carriage House

House plans are Copyright © 2009 by our architects and designers.

- Comprising a three-car garage on the ground floor and a two-bedroom apartment upstairs, this versatile dwelling can be built as guest quarters for a larger home or as a vacation cottage.
- Tudor-style elements in the design include diamond-pane windows and decorative timbering. A sheltered exterior staircase leads to the apartment's entrance.
- Inside, a window bay projects outward to expand the living-dining area. The open kitchen is easy to work in.
- Notice the laundry closet next to the coat closet, across from which another closet houses the furnace and hot-water heater.
- Both bedrooms are convenient to the full bath.
- Foundation: slab.
