Plan W1926GT: Sunny Living Spaces

House plans are Copyright © 2009 by our architects and designers.

- Sunny living spaces are found inside and out in this home plan. A handsome stucco exterior enfolds a beautiful courtyard tucked to one side of the home. A sun-drenched arbor is topped with a trellis roof, while a sheltered loggia provides a covered outdoor living area.
- The foyer can be reached through double doors from both the arbor and the loggia, and leads smoothly to the formal dining room and the adjoining living room with its cozy fireplace and built-in media center.
- This flowing design continues to the kitchen and adjoining bayed breakfast nook. A wet bar around the corner features a nifty pass-through to the nook.
- Farther down the hall, two secondary bedrooms offer walk-in closets. The corner room has a cute window seat. A full bath with a dual sink vanity services both rooms.
