- The craftsman style era of special detail in architectural elements complements this perfect floor plan! An exterior of rustic siding and carriage style garage doors are accented by stone features and shed roofs.
- This split three bedroom plan has large bedrooms and an upper-level media room accommodating just about any family.
- Stylish ten-foot boxed ceilings are used throughout giving a grand effect while the quaint rear grilling porch sports a vaulted ceiling.
- Plenty of storage can be found in this smart design and if needed the upper bonus room can serve as off season storage or better yet, the much adored home theater.
