Plan W21124DR: Wrap-Around Porch, Transom Windows

House plans are Copyright © 2009 by our architects and designers.

- A wrap-around porch and windows with arched transoms distinguish the exterior of this country design. Off the porch, the foyer is spacious enough for several pieces of furniture.
- The foyer is enclosed by double doors that open to the hall near the fireplaced living room.
- Featured in the spacious kitchen are a central island and a walk-in pantry. The nearby dining room opens to the porch, as does the breakfast area.
- Upstairs, the good-sized master suite has a walk-in closet and an elegant bath with twin vanities and separate tub and shower. Another full bath and two more bedrooms complete the floor.
- Ceilings: 9' standard first floor; 8' standard second floor.
- Foundation: basement.
