Plan W47079PR: Ornamental Half-Timbers and Rustic Beams

House plans are Copyright © 2009 by our architects and designers.

- Ornamental half-timbering and diamond-pane windows lend character to the exterior of this cozy single-story home plan. Rustic beams define the ceiling of the living room, which also features an inviting window seat and a cozy, raised hearth fireplace.
- Designed for comfort and efficiency, the kitchen has a built-in corner pantry and access to a handy utility room housing the washer and dryer. French doors in the dining room open to a rear patio.
- Two sizable bed-rooms and one full bath room occupy the left side of the home plan.
