Plan W6304HD: Traditional Welcome

House plans are Copyright © 2009 by our architects and designers.

- Arched windows and a series of gables herald guests' arrival at this traditional home. Inside, they are welcomed by high-ceilinged formal living and dining rooms on either side of the foyer. In the rest of the dwelling, 10-foot ceilings are standard.
- In the central family room, a long fireplace-media wall, complete with shelves and niches, also can be viewed from both the efficient kitchen and the bayed breakfast nook. The kitchen includes a handy walk-in pantry.
- In the generous master suite, sliders open to the covered rear patio. The master bath treats you to a large walk-in closet, double vanities, a corner tub and a wonderful doorless shower. Note the private toilet chamber and large linen closet.
- Two secondary bedrooms share a hall bath. The remaining bedroom enjoys easy access to the pool bath, making it a wonderful in-law or guest room.
- Foundation: slab.
