House plans are Copyright © 2009 by our architects and designers.

- This inviting home plan has craftsman styling with upscale features. It is a very flexible home with lots of options to choose from.
- The front and rear covered porches add usable outdoor living space. The great room is vaulted with built-in cabinets and a gas fireplace. The spacious kitchen has an island with an eating bar. The hall bath is equipped with dual lavatories for convenience.
- The master bedroom has a raised ceiling and opens into the well equipped bath with dual lavatories, corner tub and walk in closet.
- There is a shop area off the garage for projects and storage.
- Future space upstairs could be a playroom, extra bedroom, or just extra storage. The flex space could be used as a home office, dining room, or playroom.
