- Picture raising your family in this attractive home plan. With handsome columns and railings, the front porch offers a place to visit with neighbors. In back, another covered porch is accessed via an atrium door.
- The great room is complete with built-ins next to the gas fireplace. The well-designed kitchen lies between the formal dining room and the informal breakfast room, which also opens to the rear porch.
- On one side of the house, the master suite is convenient to a bedroom that can function as a nursery or private study. Twin walk-in closets and a luxury bath are features of the master suite.
- On the other side of the house, two more bedrooms share a full bath.
