

Plan W4802ZG: Split-Bedroom Privacy

House plans are Copyright © 2009 by our architects and designers.

- The split-bedroom configuration of this traditional ranch home offers privacy for both parents and children.
- The exterior boasts three friendly gables and a recessed entry with a sidelight next to the front door. Inside, the vaulted ceiling of the foyer lends a formal touch. Straight back is the central great room with its vaulted ceiling and optional fireplace. In the adjacent kitchen, a bay window overlooking the backyard provides a comfortable eating area. There is also a window over the sink and a pantry closet.
- The master suite consists of a good-sized bedroom, a large walk-in closet and a private bath. On the other side of the house, another full bath lies between bedrooms two and three, both with excellent closet space.
- Foundation: slab.
