Plan W6351HD: "Bermuda" Island Style Elevation

House plans are Copyright © 2009 by our architects and designers.

- Built upon piers, this design is perfect for low-lying areas, yet is open and airy. Three decks, one in front and two in back, encourage outdoor living.
- Vaulted ceilings expand the space in the living and dining rooms, both of which open to the rear decks. The well-equipped kitchen has a pass-through to the screened deck, making it ideal for al fresco meals.
- The first-floor master suite offers a luxurious bath with a walk-in closet and a dressing area. Upstairs is another full bath, bedroom two and a loft that could serve as the third bedroom.
- Related Plans: See these related beach cottages - 6364HD and 6376HD.
