House plans are Copyright © 2009 by our architects and designers.

- This house plan features a hidden garden with its own spa and fireplace - a great surprise setting in a special home.
- From the entry cross the gallery and you'll enter the expansive great room. A fireplace helps divide the space and windows in back give you views across the covered patio.
- The master suite features his-and-her baths and has dual access to the hidden garden.
- A butler pantry separates the formal dining room from the kitchen. Informal dining can be had at the counter bar or in the informal dining area off the kitchen.
- Bedrooms 2 and 3 share a bath and the study can double as a guest room.
