Plan W6334HD: Award-Winning Courtyard Design

House plans are Copyright © 2009 by our architects and designers.

- This sumptuous award-winning design is built around a courtyard that allows for intimate poolside gatherings in complete privacy. In addition to the courtyard, there are an angled terrace off the upstairs bedrooms and two ground-level patios.
- With window walls in every gathering space, views are enhanced. On the first floor, varied ceiling designs and heights create visual excitement, as do the curved shapes of the rooms. Family space is generous. A guest house/home office is privately accessed.
- The sumptuous master suite includes a wonderful bath with grand arches over the spa tub, an immense walk-in shower and his and her walk-in closets.
- Extras include a summer kitchen by the garage and an intimate sunken powder room tucked under the stairs.
- Foundation: slab.
