Plan W88335SH: Craftsman Carriage House Plan

House plans are Copyright © 2009 by our architects and designers.

- Perfect for a guest apartment, or as an income possibility, this fine Craftsman carriage house plan will look good in any neighborhood.
- With rafter tails, a shed dormer, a gabled porch roof and a stone-and-siding facade, the Craftsman style is highly evident.
- A two-car garage shares space with a laundry room and a half bath, while the 679-square-foot main living space is upstairs.
- Plenty of storage can be found at the first landing of the stairs. The living room is open to the stairwell, and is adjacent to the small yet efficient kitchen.
- The bedroom features a walk-in closet.
