Plan W6528RF: Five-Bedroom Home Plan

House plans are Copyright © 2009 by our architects and designers.

- Designed for the large family, this country farmhouse offers five bedrooms, one of which could be used as an office or for home schooling.
- Elegant French doors access the formal dining room from the kitchen, where a pantry closet and built-in desk add convenience. A covered porch is located off the great room with its fireplace. Another covered porch wraps around the front and side of the home.
- A 10' tray ceiling tops the master bedroom, which opens to a luxurious bath with a spa tub and a walk-in closet.
- Upstairs, three family bedrooms share a bath. A recreation room on this floor makes a perfect children's gathering place, and a bonus room allows for expansion.
- Ceilings: 9' first floor; 8' second floor.
- Foundation options: basement, slab or crawl space. Specify when ordering.
- For a reversed version of this house plan with a three-car garage, see 6538RF.
