

Plan W35122GH: Log Home Escape

House plans are Copyright © 2009 by our architects and designers.

- This plan is dominated by a prow-like vaulted space giving you expansive views from throughout the home.
- Decks surround the main floor. Choose between a screened porch, open deck or covered porch.
- The master suite commands the upstairs. An open loft is a perfect spot to watch the sunsets.
- An unfinished walkout basement with a full bath expands your possibilities.
- Related Plan: Build on a crawl space with house plan 35210GH.
